Classical Meets Jazz Ensemble (CMJ) The Classical Meets Jazz (CMJ) programme was set up in 2016 by Hackney Music Service in partnership with LSO Discovery.

The programme aims to respond to the underrepresentation of professional musicians from black and global majority ethnic groups, as well as those challenged by socio-economic circumstances, in orchestral and jazz ensembles. CMJ is holiday course based and works with young musicians of mixed age and mixed musical ability, and explores improvisation and ensemble playing through music influenced by classical and jazz repertoire. CMJ has performed at several prestigious events and venues including the Barbican, the EFG London Jazz Festival at the Southbank in the Clore Ballroom and the QEH as well as Hackney's annual Schools Music and Dance Festival. Since the programme was established, we have seen an increase in the diversity of membership to our own borough ensembles and have supported young people into the LSO East London Academy and other partnership groups.

Look out for Chaucer, as he goes about his busy working day, overseeing the extension of the Tower of London Wharf. With deadlines to meet, he really can't afford to be distracted. But his day will be interrupted by four medieval characters who keep popping up around him, wanting to tell their stories.

'The Poet's Predicament' features actors performing short scenes throughout the day. Actors will appear at various locations and will be around to stop and chat. The scenes they perform are designed to both transport you back to medieval London and fit easily into the rest of your Tower visit.
